

Have you seen this bug?

Brown marmorated
stink bug

**Photograph it, catch it & call us
- or notify your supervisor**

9368 3080

Brown marmorated stink bugs are not found in Australia but are well known to travel long distances hiding in luggage. These pests cause serious damage to fruit and vegetables and destroy plants.

If you see one **photograph it, catch it and call us.**

You can also photograph and report any unusual insects using the MyPestGuide™ Reporter App mypestguide.agric.wa.gov.au
