

A TASTE OF THE

GOLDFIELDS-ESPERANCE REGION

Food and Beverage Capability Guide

REGIONAL FOOD AND BEVERAGE CAPABILITY GUIDES

Food and Beverage Capability Guides act as a single capture point for regional food and beverage products. The guides provide featured producers with an opportunity to build new connections with local consumers, retailers, buyers, wholesalers, chefs, caterers, tourism operators and regional events who may have previously been unaware of their product or it's unique proposition.

The Regional Guide series project is an initiative of the Food Industry Innovation program which supports Western Australia's premium and value-add food and beverage producers to overcome barriers to growth, reduce risks around planned expenditure and capture new opportunities for growth through provision of a range of tools and services.

Delivered by the Agribusiness, Food and Trade directorate of the Department of Primary Industries and Regional Development (DPIRD), the Food Industry Innovation program is funded by the State Government's Royalties for Regions program.

If you are interested in connecting to the Food Industry Innovation program or would like to be included in future editions of the Food and Beverage Capability Guide, contact the Food Industry Innovation team:

ACKNOWLEDGMENT OF COUNTRY

Palya (hello, welcome)

We acknowledge the traditional custodians of the lands that the Goldfields-Esperance region overlays and pay our respects to Elders past, present and emerging. We also celebrate their continuation of cultural, spiritual and educational practices of Aboriginal and Torres Strait Islander peoples today, and into the future.

Acknowledgment of Country allows us to show respect for the custodians and their continuing connection to the water, land and community.

It is customary for Aboriginal people to come together to share food, discuss business, sort out differences and restore harmony in their society, and this has been the practice for thousands of years. Aboriginal people have a strong ongoing relationship to country, and it has been fundamental to their survival providing the nutrients needed to sustain their health to live off the land, which is why they are known as 'The Keepers of the Land'.

Women and children would gather plants and berries and prepare meals, while men hunted for larger staple foods such as Kangaroo and Emu. Each person in the community had a responsibility that contributed to a thriving society. Generations were taught about plants and animals developing cultural knowledge around the various food supply provided throughout the different seasons of the year.

Today Aboriginal families still enjoy these traditional foods and are excited to be sharing this with all Australians.

FOREWORD

The Goldfields-Esperance region of Western Australia is home to a wide range of quality fresh and value-added produce.

This guide is a roadmap through the region's food and beverage products, designed to help producers get the most from domestic and export market opportunities.

The McGowan Government, through the Department of Primary Industries and Regional Development (DPIRD), has been supporting value-adding food and beverage businesses to expand and create new jobs.

With our reputation for producing high quality produce combined with our close proximity to Asia, we are in a unique position to share our beautiful produce with our neighbouring markets.

Nearly 16,000 people are currently employed in food and beverage manufacturing in Western Australia, transforming primary produce into new consumer-ready products. The food and beverage sector provides opportunities for growth and diversification of the State's economy and workforce, especially in regional communities.

Producing this guide has allowed DPIRD, the Esperance Chamber of Commerce and Industry (ECCI) and Goldfields-Esperance Development Commission to strengthen regional partnerships, and build a stronger agricultural produce ecosphere.

Hon Alannah MacTiernan MLC
Minister for Regional Development and Agriculture and Food

GOLDFIELDS-ESPERANCE REGION

The Goldfields-Esperance region is known for its diversity and uniqueness, reflected in its thriving Agrifood and beverage sector.

Situated in the south-eastern corner of Western Australia, the Goldfields-Esperance region is the largest region in the State, covering over 950,449 square kilometers. It is made up of ten local government authorities: Coolgardie, Dundas, Esperance, Kalgoorlie-Boulder, Laverton, Leonora, Menzies, Ngaanyatjaraku, Wiluna and Ravensthorpe.

The agriculture and seafood industries are significant contributors to the regional economy and the Goldfields-Esperance region has developed a strong reputation as a producer of high-quality, fresh, premium food products.

Broadacre crops and livestock including wheat, barley, canola, pulses, sandalwood, sheep and cattle products, serve as the region's most valuable agricultural commodities. The region's south-east coast has an established wild capture seafood industry, recognised internationally as high-quality with a clean marine environment and strong biosecurity integrity. products are exported via the Esperance Port to growing markets around the world.

The Goldfields-Esperance region is a producer of a diverse range of local value added food and beverage products ranging from honey, olive oil, bushfoods, baked breads and sweets, grain, free range eggs, meat (beef, lamb, pork, chicken) and premium seafood (wild harvest greenlip abalone, octopus, sardines, salmon, southern rock lobster, deep water crabs and scallops). In terms of beverages, the region is home to locally produced wines, beers, ales, ciders and gin.

As global demand for premium, clean food rises, the region is in a position to grow the value of the Agrifood sector and deliver increased prosperity to communities, with products uniquely from the Goldfields-Esperance region.

Here is a snippet of the flavours Goldfields-Esperance has to offer.

THE IMPORTANCE OF SUPPORTING LOCAL

BUY WEST EAT BEST

The State Government is committed to a buy local strategy, to build on Western Australia's reputation as a provider of safe, premium food and product into secure, diverse and high value markets. In 2008, the Government established a trusted State of Origin, food and beverage labelling program, known as Buy West Eat Best, championed by industry and administered by Government. The criteria and compliance requirements for this voluntary membership program, ensures the integrity and assurance across the industry, that the licensee's product is grown, farmed or fished in Western Australia and processed and packaged right here.

For more information <https://www.buywesteatbest.org.au/>

There are many benefits to buying locally grown food, and each person makes their choice for different reasons.

BUYING LOCAL MEANS FRESHER AND LONGER LASTING FOOD

Many people feel local food tastes better and lasts longer. The further food has to travel, the longer the time from picking, the less time it will last in your home until use.

BUYING LOCAL MEANS YOU KNOW WHERE YOUR FOOD COMES FROM

Buying local ensures that you receive quality products that you know have been grown, farmed, fished and processed in your region. This connects you to your food and allows you to choose healthier choices for yourself.

BUYING LOCAL CREATES A MORE RESILIENT LOCAL ECONOMY

Buying local supports the local food and beverage industry and the wider regional economy as your dollars stay in the area and circulate around the community. This is especially true when local restaurants, grocers and supermarkets offer more locally produced food. Each food and beverage business uses local services such as mechanics, marketing experts, IT specialists, etc – spending locally helps the local and regional economy to survive.

BUYING LOCAL CONNECTS YOU TO YOUR COMMUNITY

Buying local allows you to get to know your regional retailers, farmers and local manufacturers who are producing your food and beverage products, connecting you to your community and allowing you to better understand how your food is produced.

ALKOOMIE HONEY

Located in the heart of the Western Australian Goldfields, Alkoomie Honey produces a range of beautifully rich and unique honey.

Starting as a hobby and a drive to support declining global bee populations, with honey as a by-product has seen Kalgoorlie based Alkoomie Honey blossom into a growing family owned and operated business.

Their pure, raw, unpasteurised honey is manually harvested directly from the bee hives across the goldfields, and is lovingly processed & bottled by hand.

Alkoomie are more than just honey, producing a range of delicious nougats, fresh and creamed honey, as well as beeswax food wraps.

When purchasing a product from Alkoomie you are not only supporting a small family owned business, you are also helping to save the declining bee population.

PRODUCT RANGE

- 3kg Honey
- 1.1kg Honey
- 500g Squeeze Honey
- 440g Honey Jar
- 150g Honey Jar

BEATEN TRACK BREWERY

Beaten Track is a small microbrewery that specialises in craft beer and ciders, operating in the industrial suburb of South Boulder.

Beaten Track Brewery is a craft brewery that specialises in small batch craft beers, craft ciders and burgers. Their journey started 13 years ago when the original founder started a small tasting facility in a repurposed sand blasting shed in the industrial area of Boulder.

Producing 60L of beer at a time, to date they have expanded to producing 500L batches and have changed the brewery from a two lounge tasting area to a 75 seat full tap room and burger bar.

Beaten Track Brewery brew a variety of different blends of traditional and on trend beers and ciders. They love experimenting with new flavours meaning there is always something new to taste.

PRODUCT RANGE

- A rotating lineup of seasonal, on trend, and traditional beers and ciders

SALES INFORMATION

- Everything available from the cellar door

BREAD LOCAL

Bread Local is an artisan bakery producing a range of handcrafted sourdough breads, cakes, pastries and fresh foods.

Bread Local produce a range of handcrafted sourdough breads, cakes, pastries and fresh foods. Their philosophy is that food should be simple, delicious and shared with friends and family.

Owner and baker Tiffany Brown was born and raised in Esperance. After returning to her home town in 2013 she decided to pursue her passion for food and create an artisan baking business that specialised in traditionally made sourdough breads.

The business was launched from her home kitchen and after an overwhelming response at the local Esperance Growers Market Tiff and her partner Tom converted their garage in 2017 into a commercial kitchen and bakery.

Based in Esperance WA, Bread Local is nestled under the gum trees and provides a weekly bake-to-order service or customers can call into their shop on Friday afternoons.

CONDINGUP VINEYARD

Condingup Vineyard is located 67km east of Esperance on the rugged south coast, nestled in a landscape of pristine brilliance. Known as the most Easterly Winery in WA.

Sapphire waves break upon crisp, white beaches, and stoic granite tors rise above an ancient landscape. It is here that Jim and Aneta Creighton, a father-daughter duo, bring their international expertise to produce wines that showcase the depth and complexity of the South East Coastal Region.

Since 2017, when Jim and Aneta brought the twenty-year old vineyard out of retirement, they have built a wine portfolio that expands with each successive vintage.

Every process is done in house and by hand, from vineyard through to the final bottled product ensuring total quality oversight.

ESPERANCE DISTILLERY CO

ESPERANCE HONEY

Esperance Honey run by a small team of apiarists based in the beautiful, remote coastal town of Esperance, Western Australia.

Led by Kevin Macneall, Esperance Honey started as a backyard operation in 2000 with just a single hive transferred from the wall in Kev's house. Now they have over 500 hives in honey production and 300 hives dedicated to an ongoing breeding program.

They move their honeybees to the best sites on both public and private lands across the Goldfields-Esperance region and WA's south-west to make use of the landscape's diverse natural resources.

Honey is extracted as naturally as possible; unprocessed and raw, so that the natural biological properties remain intact. They are a true reflection of nature and all the health benefits that natural honey has to offer.

LUCKY BAY BREWING

Lucky Bay Brewing is the only brewery in WA that sources raw barley direct from local Esperance farmers to make hand crafted beer.

Coming from the heart of the barley producing region in Western Australia's south east, Esperance's Lucky Bay Brewing is part of the local farming community.

Being local they select the season's best produce from local farmers, use no preservatives and fresh rain water to create award winning brews. You will want to savour to the last drop, just like our local beaches.

Lucky Bay Brewery have won a number of awards for their craft beer at the Perth Royal Beer Awards from 2018 - 2020. They have now won awards for every one of their beers entered into the prestigious Perth Royal Beer competition.

From paddock to pint, a lot of love, effort and science goes into hand crafting their local beers.

MYSTWOOD HARVEST

The Mystwood Harvest family starts with regenerative agriculture techniques to grow and share vegetables within our community.

Mystwood Harvest are honoured to share their harvest with their CSA members through a community based model. Memberships contributes to making our planet a better place.

Their vision is to cultivate a direct farmer to consumer relationship in the hopes of changing the way food is received through regenerative farming practices to preserve natural resources and help them to enrich the soils for more nutrient dense crops.

They are honoured to be the first in Esperance to provide this concept of growing and sharing to the community and believe small, ethically-minded communities hold the power to help change the future of our planet and the way food makes its way from the farm to our plates.

SHARK LAKE PIGGERY

On a hill just out of Esperance, overlooking the Southern Ocean, sits the Shark Lake Piggery.

Shark Lake Piggery produces a premium quality pork range known for its superb eating quality. Established almost 40 years ago, the Hoffrichter family have brought their passion and knowledge for pigs and breeding to Shark Lake Piggery.

Through the creation of a specialised breeding program, they have selected the best genetics to produce this high quality eating experience in all cuts.

From the humble pork chop to flavoursome pork bellies, delicious pork ribs to a traditional roast with crackling, Shark Lake pork will always be a tasty experience to remember.

UPWARD SPIRAL ROASTING

Upward Spiral Roasting is a family owned and operated coffee and tea shop and roastery located at Cloud 11 in the heart of Esperance.

Upward Spiral Roasting beans are locally roasted weekly by the barrister/owner, Glen and their large range of tea (Teaside) is locally packaged in house.

They started as a production coffee roaster but after a year decided to open their own shop. They roast specialty coffees from around the globe, in small batches, ensuring that the people of Esperance have a supply of fresh and ethical coffee.

Glen enjoys exploring the different origins, processing methods and varieties of coffee meaning they are often trying new season coffees.

They also source a wide range of whole leaf teas and tisanes to provide you with an outstanding range of flavours for every palette.

YIRRI GROVE

Anne and Shane are firmly committed to promoting and supporting locally grown and produced food.

Situated in the beautiful south east coastal region of Western Australia near Esperance and the Recherche Archipelago, Yirri Grove enjoys a mediterranean climate with clean air and very few environmental impacts.

The soil is deep sandy loam over limestone and has an average rainfall of 600mm per year – Perfect conditions for growing olives. They grow four varieties: Kalamata, Manzanillo, Frantoio and Barnea. These varieties are chosen and planted to assist with pollination and for their dual purposes of high producing table olives and excellent oil olives.

Their olives are all handpicked, processed and bottled on the property.
